 Four little, five little, six little dinos
 Seven little, eight little, nine little dinos
 Ten little Dinosaurs

Ten little, nine little, eight little dinos
 Seven little, six little, five little dinos
 Four little, three little, two little dinos
 One little Dinosaur

Resources

Support the children to create dinosaur masks costumes to join into the song, or you may choose to make dinosaur hand/finger/stick puppets to help children to see the dinosaurs as they appear in the song. Children will enjoy making these props and costumes and they can be used to make the rhyme come to life.

Extension opportunities

The children may prefer to use small world dinosaurs to act out the song, and as each number is sung the children can stand up or sit down to demonstrate numbers going up or going down in order. This song helps children to understand the number line and placement of the different numbers.

Home learning ideas

Children will enjoy singing this rhyme at home, but remember to put the words in the sack too, so parents and other family members can join in.
